

INDIAN KNOWLEDGE SYSTEM PYQ

QUICK STATS

PYQS

1 1-marks questions

1. What was the place value of the Babylonians' number system. [CAT 25]
2. Name the person who give the first symbols for zero.What was that symbol? [END 24]
3. What is the meaning of PARAM in PARAM-8000? [END 22]
4. Write the equation of the author Chandrashashastra. [END 22]
5. List top three Indian It companies in the decreasing order of their market capital. [END 22]
6. List any three R&D entities in India that has notable contribution in research in the domain of Computer Science. [END 22]

2 2-marks questions

7. Why do quantities more than four look vagure?Why does a person need to use counting for such quantites? [CAT 25]
8. Which dynasty pioneered the preparation of wootz steel in India? [END 25]
9. As per the current knowlwdge whoose text mentions fibonacci series? [END 25]
10. Which are the top three Indian IT companies in term of market capital? [END 25]
11. Who is the head of the committee that recommended estabblishing IITs in India and when this committee was formed? [END 25]
12. List three objectives of establishing AICTE. [END 25]
13. *"We owe a lot to the Ancient Indians,teaching us how to count.Without which most modern scientific discoveries would have been impossible"*.Whoose quote is this? [END 24]
14. What are the two uses of zero in number system?List them. [END 24]
15. List any two objectives of the Indian Super Computing program. [END 24]
16. When Indian IT industry was born? [END 24]
17. Name the commitee and its chairman whoose recommendation guided the Govt. of India to establish IITs. [END 24]
18. Discuss any two methods ancient people used for counting cattles. [CAT 24]

3 3-marks questions

19. The Bakshali manuscript is famous for what?When and where was it found? [CAT 25]
20. What do you understand about the Bakshali manuscript? CAT 24

4 4-marks questions

21. Explain why the Golden ratio is called the divine ratio. [CAT 25]
22. Write about the contribution of Aryabhata to Ancient Indian Knowledge. [CAT 25]
23. Why was the development of counting methods necessary for human civilizations? [CAT 24]
24. What is the golden ratio? Explain any three places/objects where you can observe the Golden Ratio. [CAT 24]
25. What is Fibonacci Series? What is the Indian connection of this series? [CAT 22]
26. List the names of three famous Indians and their contribution to Computer Science. [CAT 22]
27. What are the key reasons behind the tremendous success of India in IT? [CAT 22]

5 4-marks questions

28. Discuss the concept of *Golden Ratio* with some examples [CAT 22]
29. Write a short note on any two of the following:
 - (a) CDAC
 - (b) Invention of zero
 - (c) Aryabhata

6 5-marks questions

7 10-marks questions

30. Describe the contribution of Aryabhata to Indian Mathematics and astronomy. [END 25]
31. Discuss all the evidence of zero found in India. [END 25]
32. Write a brief note on the following two ancient Indians who significantly contributed to Computing. [END 25]
 - (a) Pingala and his contribution
 - (b) Brahmagupta and his contribution to mathematics.
33. Explain R&D ecosystem of Computer Science and Information technology in India. [END 25]
34. Discuss about the ecosystem of funding for the development of science and technology in India. [END 25]
35. What do you understand by *sensing numbers* by humans and animals? Elaborate. [END 24]

36. Put some light on the history and evidence of the number *zero* in connection with Bharat.
[END 24]
37. Write a brief note on the following Indians who significantly contributed to Computing.
[END 24]
 - (a) Ajay Bhatt
 - (b) Abhay Bhushan
38. Explain why AICTE was established. [END 24]
39. What is the role of CDAC in creating supercomputing infrastructure in India? List the names of any three supercomputers developed in India. [END 24]
40. What is the importance of zero in a number system? Elaborate on the invention of zero.
[END 22]
41. Write about 5 Indians and their contribution in Computing. END 22
42. Elaborate the Super Computing program of India. [END 22]
43. Write about three main Funding agency who fund research in computing. [END 22]
44. Elaborate on the condition of Private sector in the field of computing in India. [END 22]

45. 8 20-marks questions

46. Answer the following each carrying 10 points: [END 25]
 - (a) Explain why the evolution of counting was necessary to the evolution of human civilizations.
 - (b) Explain the presence of fibonacci numbers in the family tree of Honeybees.
47. Answer the following each carrying 10 points: [END 25]
 - (a) Discuss how India became global leader in Information Technology.
 - (b) Elaborate about the academic ecosystem of Computer Science and Information Technology in India.
48. Answer the following each carrying 10 points: [END 24]
 - (a) Explain the *evolution of numbers* across different human civilizations.
 - (b) Explain the *Golden Ratio* and discuss any two expressions of this ratio that are available in nature.
49. Answer the following each carrying 10 points: [END 24]
 - (a) Discuss briefly the top 5 IT companies of India.
 - (b) Explain how IITs were established by Govt. of India. Also, elaborate on how they become leading technical institutes of the country.
50. Elaborate on the ecosystem of computer science research and application development in India and its important achievements. [END 22]
51. What is the Indian connection of Fibonacci Series? Elaborate on its presence in nature and its connection with Golden Ratio. [END 22]
